Ideas and inspiration
Marble technique

1.Take 4 colours of clay and roll them into long sausages, placing them next to each other.

2.Roll the 4 colours together to create one large sausage where the colours intertwine.

3.Roll the clay out until it's long enough to fold in half.

4.You can repeat this step as many times as you like.

5.Once you are happy roll the clay out flat using your acrylic rolling pin

6.Select the parts of the design you are most happy with and use your cutters as directed in step 4 of 'how to use polymer clay'
